SKILLS

- **Languages:** C, C#, Java, Python
- **Technologies:** Unity, Unreal Engine, Git, REST APIs
- **Concepts:** Agile/Scrum, Object-Oriented Design, Data Structures & Algorithms

EDUCATION

University of Central Florida

Bachelor of Science in Computer Science

GPA: 4.0

Orlando, FL

May 2028

TECHNICAL PROJECTS

Procedural Road Surface/Track Generation Tool – Unity (C#)

- Engineered a modular procedural mesh system in Unity using OOP to generate customizable track geometry
- Procedurally generates 6,000+ vertices per mesh using spline sampling and 3D vector-based computation
- Built custom Unity editor tools to enable rapid prototyping of track geometry using user-defined parameters
- **Link to project:** <https://github.com/JamesMcAdamsDevHub/Unity-CustomTrackGeneration>

PROFESSIONAL EXPERIENCE

Curriculum Associates

Co-op Software Engineer

Remote

June 2026 - Present

- Develop and maintain production software for educational products using Unity, C#, and Java
- Implement features and resolve defects across existing systems
- Participate in code reviews, testing, and technical documentation
- Built tooling to produce JSON datasets containing 10,000+ records for efficient caching and API consumption
- Develop Java API endpoints to fetch and write simulated student data for product testing and demonstrations

University of Central Florida

Teaching Assistant - Intro to Object-Oriented Programming / Computer Science I

Orlando, FL

August 2025 - May 2026

- Supported 120+ students in Intro to Object-Oriented Programming and 400+ students in Computer Science I
- Routinely held office hours, worked individually with students, and graded exams and programming assignments
- Led 2 weekly lab sessions for CS1 covering data structures, algorithms, and fundamental CS concepts
- Evaluated and debugged student code to ensure correctness, efficiency, and code quality

PepsiCo

Sales Representative/ Supply Chain Operations Associate Supervisor

Melbourne, FL

July 2020 - August 2023

- Built and maintained strong relationships with 5 high-volume sales accounts
- Ordered 2,000+ cases weekly, minimized out-of-stocks, and avoided unnecessary over-stock
- Led warehouse operations overseeing pallet builds of up to 14,000 cases daily
- Optimized workflow by organizing order fulfillment and improving operational efficiency
- Tracked and verified incoming and outgoing inventory to maintain accuracy and reduce discrepancies

Country Mart

Assistant Store Manager

Fredericktown, MO

October 2017 - July 2020

- Oversaw daily operations and supervised 50+ employees across store functions
- Managed inventory levels, ordered 1,000+ cases weekly, and maintained thousands of SKUs storewide
- Coordinated with vendors to ensure consistent operations and customer experience
