SKILLS

- **Languages:** C, C#, Java, Python, TypeScript, JavaScript
- **Technologies:** Unity, React, Next.js, Tailwind CSS, Git, Docker, REST APIs
- **Concepts:** Object-Oriented Programming, Data Structures & Algorithms, Agile/Scrum, Accessibility

EDUCATION

University of Central Florida — **Orlando, FL**
Bachelor of Science in Computer Science — May 2028
GPA: 4.0

TECHNICAL PROJECTS

Personal Portfolio Website – Next.js, React, TypeScript, Tailwind CSS

- Developed and deployed a responsive portfolio website using Next.js, React, TypeScript, and Tailwind CSS
- Built reusable components to showcase software projects, technical skills, and professional experience
- Implemented responsive layouts and accessibility features supporting keyboard navigation and screen readers
- Deployed the website using Vercel and maintain ongoing updates
- **Link to project:** jamesmcadams.com

PROFESSIONAL EXPERIENCE

Curriculum Associates — **Remote**
Co-op Software Engineer — June 2026 - Present

- Develop and maintain production educational software using Unity, C#, and Java
- Implement features, resolve defects, and participate in code reviews, testing, and technical documentation
- Develop Java API endpoints to manage simulated student data, streamlining regression testing and updates to teacher-facing reports
- Contribute to security dependency updates and Docker image migrations

University of Central Florida — **Orlando, FL**
Teaching Assistant - Intro to Object-Oriented Programming / Computer Science 1 — August 2025 - May 2026

- Supported 120+ students in Intro to Object-Oriented Programming and 400+ students in Computer Science 1
- Routinely held office hours, worked individually with students, and graded exams and programming assignments
- Led 2 weekly lab sessions for CS1 covering data structures, algorithms, and fundamental CS concepts
- Evaluated and debugged student code to ensure correctness, efficiency, and code quality

PepsiCo — **Melbourne, FL**
Sales Representative/ Supply Chain Operations Associate Supervisor — July 2020 - August 2023

- Built and maintained strong relationships with 5 high-volume sales accounts
- Ordered 2,000+ cases weekly, minimized out-of-stocks, and avoided unnecessary over-stock
- Led warehouse operations overseeing pallet builds of up to 14,000 cases daily
- Optimized workflow by organizing order fulfillment and improving operational efficiency
- Tracked and verified incoming and outgoing inventory to maintain accuracy and reduce discrepancies

Country Mart — **Fredericktown, MO**
Assistant Store Manager — October 2017 - July 2020

- Oversaw daily operations and supervised 50+ employees across store functions
- Managed inventory levels, ordered 1,000+ cases weekly, and maintained thousands of SKUs storewide
- Coordinated with vendors to ensure consistent operations and customer experience
